

AMERICAN Track & Field®

www.american-trackandfield.com

2009

Read by 30,000 head track & field and cross country coaches at high schools, community colleges, universities and clubs throughout USA. Now, seven times a year! The key to your company's success is reaching the decision makers—the subscribers of *American Track & Field*! Now on the web, as well at www.american-trackandfield.com!

American Track & Field is a media partner of USA Track & Field, the governing body of the sport of athletics in the United States, and has partnerships with 39 state prep sports associations.

American Track & Field is the only magazine whose marketing strategy is the same as its editorial strategy—that is, to help the sport of athletics and those professionals who serve it to broaden the base of participation and to deepen the involvement of those already participating. Our readers purchase products not only for themselves, but for the teams they coach. With an average high school team size of 51, and college size of 38, you can see the influence.

The key to understanding the 30,000 coaches who read our magazine cover to cover is that they are dedicated to their profession. Here is what we know about them:

- Average age is 39; average time coaching is 15 years
- 77% coach high school, 12% coach 4-year college, 7% coach community college, and 4% coach clubs
- 22,000 coach both cross country and track & field
- 68% of our coaches are male; 32% female
- The average time spent reading AT&F the first time around is 1 hour, 30 minutes.
- 60% of AT&F subscribers keep AT&F for over 3 years, 32% save the issues for an average of 7 years!
